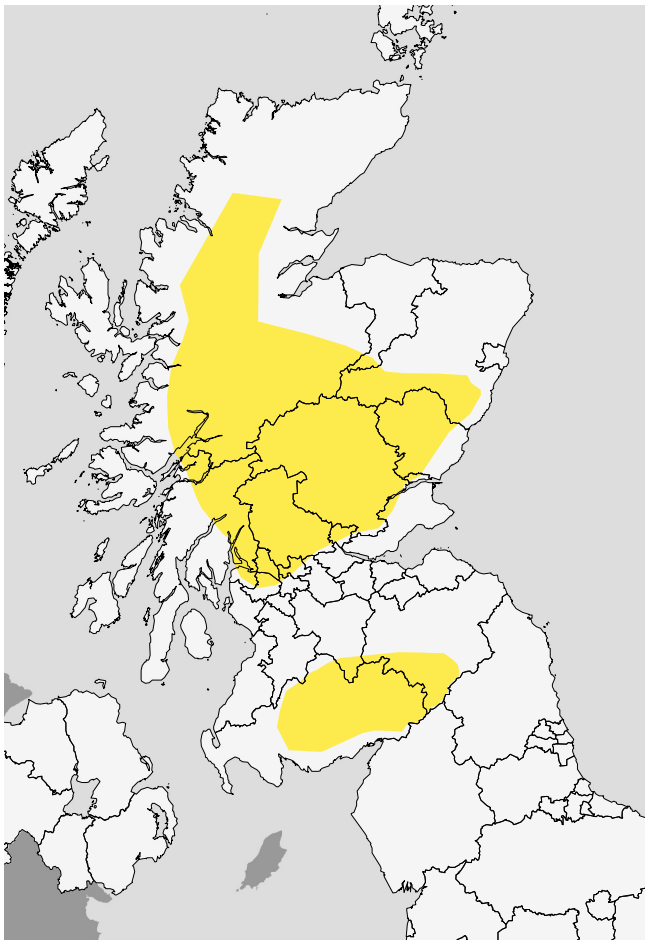
Yellow warning
Rain

Between
15:00 Sun 21 Jan 2024 and
23:59 Sun 21 Jan 2024



Heavy rain will lead to some flooding and transport disruption on Sunday.

What to expect

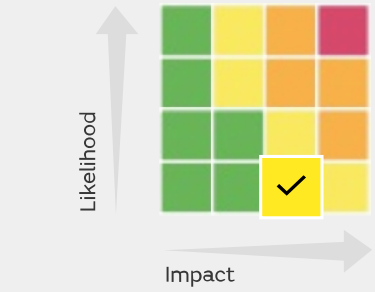
- Where flooding occurs, there is a slight chance of delays or cancellations to train and bus services
- Spray and flooding could lead to difficult driving conditions and some road closures
- There is a small chance that homes and businesses could be flooded, causing damage to some buildings

Further details

Widespread rain will extend northeast through much of the warning areas on Sunday, and will be heavy at times especially over the hills. Accumulations of 30 to 50 mm are expected over high ground bringing a risk of flooding. Milder conditions will also lead to a steady thaw of any remaining lying snow.

What should I do?

Check if your property could be at risk of flooding. If so, consider preparing a flood plan and an emergency flood kit.



Very low likelihood of medium impacts

Further Details (continued)

Give yourself the best chance of avoiding delays by checking road conditions. You may need to amend or even cancel journeys if driving conditions are dangerous. Keep up to date with bus and train timetables for delays or cancellations.

It is not safe to drive, walk or swim through floodwater, avoid it where possible and if you are affected by fast flowing or deep-water call 999, and wait for help.

People cope better with power cuts when they have prepared for them in advance. It's easy to do; consider gathering torches and batteries, a mobile phone power pack and other essential items.

Be prepared for weather warnings to change quickly. When a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.

Reason for update

Northeastern boundary extended eastwards into more of Angus and southern Aberdeenshire. Southern boundary adjusted to northern and western areas of Greater Glasgow. Start time delayed a few hours.
